ERASTEEL ANNOUNCES THE APPOINTMENT OF SOPHIE HAAN AS CEO

Paris, February 3, 2025 - Erasteel is pleased to announce the appointment of Sophie Haan as Chief Executive Officer (CEO), effective February 1, 2025.

With over 25 years of experience combining strategy and execution, Sophie Haan has extensive expertise in the industrial sector, particularly in multicultural and international environments. She has acquired precious know-how in managing strategic transformations and leading complex projects on a global scale.

“It is with a lot of enthusiasm and determination that I take up my duties as CEO of Erasteel. I'm delighted to be joining this company, with its wealth of talent, history and recognized expertise, which make it a key player in the markets it serves. Together, with the entire Erasteel team, we will pursue an ambitious strategy aimed at meeting today's challenges while shaping the future. Innovation, sustainability and operational excellence will guide our actions to continue offering our customers high-performance solutions that meet their industrial and technical challenges, while actively contributing to building a more sustainable industry.” Sophie Haan, Erasteel CEO

About Erasteel

Erasteel is the world leader in Powder-metallurgy High-Speed Steels, a major player in conventional High-Speed Steels and European leader of strategic metals recycling. Erasteel offers innovative, high-performance and sustainable metallurgical solutions that meet the current and future technological and environmental challenges of global industry: automotive, motorsports, aeronautics, electronics, energy, construction, high value-added tooling, metallurgy etc.

Erasteel has 850 employees, 6 industrial sites (3 in Sweden, 2 in France, 1 in China), 3 distribution centers and a sales network in Europe, Asia, North and South America.
